Sarah joined KSTC in May 2017. She is the Program Manager for the Kentucky Science and Engineering Foundation. Her scientific professional experience includes analysis and development of energy resources, coal-focused research, and educational outreach in STEM areas; water resource management; management of reclamation projects; and experience in financial services and post-secondary student services. Sarah earned her B.S. in Economics and B.A. and M.S. in Geology from the University of Kentucky.

Her synergistic experiences include serving as newsletter editor for the Coal Geology Division of the Geological Society of America, member of the University of Kentucky's Department of Earth Sciences Alumni Board, mentor to high school and college students interested in energy and science, and member of various professional organizations including the Kentucky Academy of Science. Sarah enjoys spending time designing and cultivating gardens, visiting historical and cultural sites, and spending time with her family, including her terrier, Neva.
